Appln. No. 09/976, i68  
Amendment After Final Rejection filed August 3, 2004  
(Response to Office Action mailed on April 6, 2004)

### REMARKS

Consideration of this Response is respectfully requested. Claims 1-38 are hereby presented; claims 1-23 correspond to claims 1-23 of patent no. 6,027,204 and have been maintained unchanged and new claims 24-38 (corresponding to claims 24-38 previously presented in the Amendment filed on June 11, 2003) are presented. Claims 1-23 stand allowed, and claims 24-38 have been rejected (claim 39, previously proposed, is no longer being added). Claims 1, 4, 15, 17, 20, 21, 24, 28, 32 and 36-38 are independent.

It should be noted that the format used in the listing of claims complies with 37 C.F.R. § 1.173 ("reissue specification, drawings and amendments") - the amendment practice specified in 37 C.F.R. § 1.121 does not apply in reissue applications (37 C.F.R. § 1.121(a)).

The revisions to independent claims 24, 28, 32 and 36-38 are made solely to expedite prosecution, and without conceding the assertions in the Office Action.

### STATUS OF CLAIMS (37 C.F.R. § 1.173(c))

Claims 1-38 are pending in this reissue application. Patent claims 1-23 are pending in this application, stand allowed, and have been maintained unchanged. New claims 24-38 were presented in the Amendment entered with the Request for Continued Examination filed on August 5, 2003.

Previously presented claim 39 was objected to only as being dependent upon a rejected base claim, and the Examiner is thanked for the indicated allowability of this claim. In view of the following remarks, each of independent claims 24, 28, 32 and 36-38 have been

amended to incorporate the features of claim 39 (since this rendered claim 39 moot, claim 39 no longer is being presented.

Claims 24-38 have been rejected.

Claims 1 (allowed), 4 (allowed), 15 (allowed), 17 (allowed), 20 (allowed), 21 (allowed), 24, 28, 32 and 36-38 are independent.

**EXPLANATION OF SUPPORT IN THE DISCLOSURE  
FOR NEW CLAIMS 24-39 (37 C.F.R. § 1.173(c))**

Since the claims have not been changed from the previous version of those claims in the Amendment entered with the Request for Continued Examination filed on August 5, 2003 (the amendment in question involves the mere transposition of subject matter from claim 39 to the rejected independent claims), a detailed Explanation of Support is not believed to be necessary. Instead, reference is made to the prior Explanation of Support in the Disclosure for New Claims 24-39, which is incorporated by reference herein..

**The Rejection  
Under 35 U.S.C. § 103**

Claims 24-38 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Japanese Laid-Open Patent Appln. No. 4-7185 to Ishii et al. in view of U.S. Patent No. 5,136,308 to Saito et al. Applicants respectfully traverse this rejection, and submit the following arguments in response thereto.

Applicants respectfully submit that since the subject matter of allowable claim 39 (now canceled) has been incorporated into each of the rejected independent claims, claims 24, 38, 32 and 36-38, claims 24, 28, 32 and 36-38 are now patentable at least for the same reasons as former claim 39.
